

CLUB REFERENCE NOTES

TECH PLATFORMS

Competitions, Certifications & Internships

Everything you need to know about the three biggest tech programs for students — explained clearly, without the fluff.

01**Infosys Springboard***Free Learning Platform***02****TCS CodeVita***Global Coding Competition***03****Wipro TalentNext***College-Partnered Training*

FREE LEARNING PLATFORM

Infosys Springboard

*Self-paced · Open to everyone · Year-round enrollment***01**

WHAT IS IT?

A **free digital learning and certification platform** by Infosys. Not a hackathon — it's a self-paced program open to anyone from **Class 6 all the way to working professionals**. Register once and learn anything, at your own pace, for free.

HOW IT WORKS

1**Register**

Create your free account on the Springboard platform.

- 2 Pick Your Path**
Choose a full learning path or individual courses — whatever suits you.

- 3 Complete & Attempt Exam**
Finish the course and clear a virtual proctored exam. Most courses give you a 6-month window.

- 4 Get Certified**
Download your certificate — generated within 24–48 hours of completing all requirements.

WHAT FIELDS DOES IT COVER?

Java · Python · C# · HTML / CSS · AI · Cloud · Cybersecurity · Blockchain · Business
Comm. · Soft Skills · Career Readiness

BY THE NUMBERS

20,000+

Courses available

6,600+

Certifications — all free

6 Mo.

Course window (most)

24–48h

Certificate turnaround

VIRTUAL INTERNSHIP

Springboard Virtual Internship (currently v6.0)

Work on real business problems and simulate a corporate environment. You receive an **official internship certificate** at the end. Free, online, open to anyone in India.

GLOBAL CODING COMPETITION

TCS CodeVita

Guinness World Record holder · Largest programming contest on earth

02

WHAT IS IT?

A **global competitive coding competition** by TCS that holds a **Guinness World Record** as the world's largest programming contest. Registration is always free. Season 13 just wrapped — Season 14 hasn't been announced yet.

SEASON 13 STATUS

REGISTRATION CLOSED

September 2025

EXAMS HELD

November – December 2025

Season 14 not yet announced. Keep an eye on the TCS CodeVita website. They usually open registration several months before the exam window.

HOW THE COMPETITION WORKS**R1****Pre-Qualifier**

6 problems to solve. An introductory round to filter through to the qualifier.

R2**Zone / Qualifier**

6 hours. 6 problems. Difficulty ramps up significantly — this is where it gets serious.

R3**Grand Finale**

Top performers are flown to a TCS campus in India to compete in person. The elite stage.

Languages Allowed: C · C++ · Java · Python · Any Language

SYLLABUS

Arrays · Strings · Graphs · Dynamic Programming · Recursion · Algorithms

MockVita practice round is available before the actual contest. Use it to calibrate your preparation and get used to the platform.

WHAT DO YOU WIN?**\$20,000**

Cash prize — split among Top 3 (~₹17–18 lakh)

3 Roles

TCS tracks: Ninja, Digital & Innovation Labs

Even qualifying for later rounds puts you on TCS's radar. **Many students receive interview calls based on CodeVita performance alone — you don't need to win to benefit.**

COLLEGE-PARTNERED TRAINING

Wipro TalentNext

Institutional enrollment · Pre-final year · Full stack certification

03

WHAT IS IT?

A **college-partnered training and certification program by Wipro**. Not a hackathon and you can't sign up directly — your college needs a tie-up with Wipro first. Pre-final year students are **nominated by their institution** and enrolled. Your entry point is your college, not you directly.

WHAT IT TEACHES

Java Full Stack (or .NET Full Stack at some colleges). Covers:

Core Java → Advanced Java → Front-End (HTML/CSS/JS) → Backend → Databases → Full Project Work

PROGRAM STRUCTURE

DURATION

5 months, roughly 240 hours total

FORMAT

Fully online — live sessions + recorded lectures via Wipro's PBLApp platform

WHO GUIDES YOU

A Wipro Certified Faculty member — usually a professor from your college, trained by Wipro

ELIGIBILITY

Pre-final year students at colleges with an active Wipro tie-up

MILESTONE SYSTEM

There are **4 milestone exams** spread across the program. You need **60% or above across all 4** to earn your certificate. Each exam is remotely proctored — camera required.

M1–M3

Milestones During Training

Three exams spread throughout the 5-month program. Each is remotely proctored — camera required.

M4

Final Milestone

The fourth and final exam at the end of the program. Clear this and you're done.

If you fail a milestone, you get **1 re-test per milestone**. Clear all 4 and receive your official **Wipro-issued Java / .NET Full Stack certificate**.
