

MOHAMMAD ARIB SALIM

B.Tech CSE Student | Machine Learning & DSA Enthusiast

+91 7217349144 | anifreakxpc@gmail.com | Ghaziabad, India
[linkedin.com/in/mohammad-arib-salim](https://www.linkedin.com/in/mohammad-arib-salim) | github.com/aribxz

Second-year BTech CSE student (Batch 2025–2029) at IMS Engineering College, Ghaziabad, entering Semester 3 in July 2026. Self-driven learner with hands-on machine learning experience through independently built and fully documented projects, alongside a consistent daily practice in data structures and algorithms.

INTERNSHIP (UPCOMING)

FlyRank AI — Machine Learning Track Intern *July 2026 Cohort · Remote*

- Selected for the Machine Learning track of a self-paced AI internship; the program is built around assignments and a reviewed capstone — a reproducible ML notebook/script with insights and recommendations.

PROJECTS

Ames Housing Price Predictor *github.com/aribxz — Regression, Feature Engineering, Model Comparison*

- Built a price-prediction model on the Ames Housing dataset (2,930 rows, 80 features) from Kaggle; performed data cleaning, missing-value handling, and ordinal/one-hot encoding.
- Ran 7 model experiments — Linear Regression, Ridge, Lasso, with/without scaling, log transformation, and a Lasso→Ridge combination — each designed to test a specific hypothesis.
- Best result: Ridge Regression ($\alpha=10$) with $R^2 = 0.88$ on the test set.
- Feature importance analysis showed neighborhood location, not size or quality, as the dominant price predictor.

StudyScore — Student Exam Score Predictor *github.com/aribxz — Linear Regression, Flask, Feature Engineering*

- Built a Flask web app predicting exam scores using Linear Regression with custom feature engineering — binary sleep flags and interaction terms to capture sleep's non-linear effect on study efficiency.
- Implemented 95% confidence intervals using the full leverage formula, what-if simulations, and a reverse goal-calculator for target scores.
- Designed and deployed a complete ML pipeline: data generation, feature engineering, training, evaluation, and deployment.

CERTIFICATIONS

- Data Science — Infosys Springboard (April 2026)
- Intro to Machine Learning — Kaggle (April 2026)

ACHIEVEMENTS

- 2nd Place, Debate Competition — “Developed UP @2047” initiative, Government of Uttar Pradesh
- Anchor, Annual Cultural Fest — IMS Engineering College

EDUCATION

B.Tech, Computer Science & Engineering

IMS Engineering College, Ghaziabad
Batch: 2025 – 2029
Entering Semester 3 (July 2026)

SKILLS

Programming

Python, C++

ML & Data

Scikit-learn, Pandas, NumPy, Matplotlib

Web Framework

Flask

Tools

Jupyter Notebook, Git & GitHub, VS Code

Core Concepts

- Linear / Ridge / Lasso Regression
- Feature Engineering
- EDA & Model Evaluation

DSA PRACTICE

130+ problems solved on LeetCode & GeeksforGeeks
Daily practice since Semester 2

LANGUAGES

English — Fluent
Hindi — Native
